Jakarta, Indonesia

PROFILE

A passionate Computer Engineering graduate specializing in user-centered digital experiences. Adept at transforming research insights into intuitive interfaces that enhance usability and engagement. Expertise in UI/UX Design. Skilled in user research, wireframing, prototyping, interface design. Strong in collaborating with teams, problem solving, and creating intuitive interfaces for mobile and web apps.

EDUCATION

Telkom University **2021 – 2025**

Faculty of Electrical Engineering, Department of Computer Engineering.

GPA: 3.47 / 4.00

PROFESSIONAL EXPERIENCES

UI/UX Designer Internship **Aug 2025 - Oct 2025**

AirNav Indonesia

- Designed end-to-end UI/UX for Helpdesk & Ticketing web application.
- Designed landing pages for web and mobile platforms.
- Built and maintained a centralized design system for UI standardization across applications.
- Defined UI standards and reusable components (color, typography, layouts).
- Collaborated with developers and designers to ensure consistent and scalable implementation.
- Built wireframes, prototypes, and design system to ensure design consistency and smooth developer handoff.

UI/UX Designer Freelance **Aug 2025 - Oct 2025**

Myoscope – IoT-based Heart Detection Healthcare App| *Collaboration with BRIN, LPDP, & Telkom University*

- Designed responsive web dashboards for doctors and admins to manage patient IoT heart data.
- Created mobile app UI for patients and doctors, enabling real-time health monitoring with an intuitive experience.
- Built wireframes, prototypes, and design system to ensure design consistency and smooth developer handoff.

UI/UX Designer Internship **May 2025 - Jul 2025**

TumbuhKita – Web-Based Child Growth Monitoring Platform| *Humic Engineering Telkom University*

- Designed user flows and web interfaces for tracking toddler growth data.
- Built a design system and applied auto layout to ensure design consistency and efficiency.
- Collaborated with the development team to implement user-centered design solutions.

UI/UX Designer Internship *(Telkomsel Smart Office)* **Jul 2024 – Aug 2024**

PT. Telekomunikasi Seluler

- Revamp FMC Dashboard 17 pages for executives in Telkomsel Smart Office
- Optimize 3 data visualizations implemented and approved by management
- Collaborate with 3 main parties: General Manager (GM) Business Intelligence & Analytics Reporting, Manager IT Finance & Reporting, and Business Analyst.

Laboratory Assistant **Jul 2023 - Jul 2024**

Multimedia, Arts, Graphics, Interactive Computer & Simulation (MAGICS) Laboratory Telkom University

- Teaching image processing, digital signal processing, and audio processing to 70 students weekly, boosting understanding by 40%
- Led a Spark AR study group for 30 students, achieving 90% success rate
- Manage assessments for 70 students.

LICENSES & CERTIFICATIONS

Certificate of Competence: Belajar Dasar Pemrograman JavaScript | Dicoding Academy

Certificate of Competence: Belajar Dasar Pemrograman Web | Dicoding Academy

Certificate of Competence: Belajar Dasar AI | Dicoding Academy

Certificate of Completion in Cloud Computing | Bangkit Academy led by Google, GoTo, Tokopedia, Gojek, & Traveloka

Certificate of Completion: Studi Independen Bersertifikat Angkatan 7 | Kampus Merdeka, Yayasa Dicoding Indonesia

TOEFL Prediction Test Score: 520 | Elskill

TECHNICAL SKILLS

- Figma, Draw.io, Canva, Wireframing, Mockups, Usability Testing, Typography & Color Theory, Design System
- HTML & CSS
- Google Cloud Platform, Lovable, V0 dev, Framer
- Microsoft Office (Word, Power Point)
- Operating System: Windows, Linux (basic)

OTHER

- Portofolio ✓: UI/UX Design
